How we got LKR 720,000 for year one: package LKR 449,000 + service 10 months × LKR 5,000 = 50,000 + hosting and database about LKR 180,000 + app store fees about LKR 41,000. Hosting uses Vercel Pro ($20) and Supabase Pro ($25) a month, Apple $99 a year, Google Play $25 once, at about LKR 330 per US dollar.

All money figures are examples built on small, cautious numbers. One visit = LKR 3,700 (a pasta and a drink on the current menu). Food costs assumed at about 35%. Real results are measured after launch.
